SUMMER SESSIONS, 1934

Sessions of 1934.

The annual Summer Session of the University of California will begin Monday, June 25, 1934, and will continue until Friday, August 3, the session covering six weeks. The Summer Session will be preceded by an Intersession covering the period of six weeks from May 14 to June 22.

The Summer Session of the University of California at Los Angeles will begin Friday, June 29, 1934, and will continue until Friday, August 10.

Purpose of the Sessions.

The Intersession.

The courses in the Intersession are designed primarily to meet the needs of students attending, or about to attend, the courses of the fall or spring sessions.

1. Lower Division students will find opportunity to enroll in a number of courses which may be offered in satisfaction of junior certificate requirements in the College of Letters and Science as well as in courses prerequisite to advanced study in several fields.

2. Upper Division students in the larger departments will find opportunity to continue their work.

3. Graduate students will find opportunity to enroll in Upper Division major courses and in seminars.

In general, by combining the Intersession and the Summer Session, it will be possible for students to obtain, in a single summer, credit for one semester's residence and for eight to twelve units of work, thus reducing by six months the time required for completion of work for a degree.

The Summer Session.

The courses in the Summer Session are designed to meet the needs of the following persons:

1. Teachers who wish to increase their professional skill, to revise and extend their knowledge of a chosen field, or to qualify in new subjects, preparing to meet the special demand for instruction in various fields.

Teachers who desire to be prepared for service in vocational schools and classes maintained under the provisions of the State and Federal Vocational Education acts, and the State Continuation Education Act. Courses designed primarily for this purpose are listed under the Department of Education in this bulletin.
2. School superintendents, supervisors, and other officers.

3. Graduate students.

4. Undergraduate students, and especially those registered in the fall or spring sessions of the University, who may use a portion of the vacation to take up studies which they are unable to include in their regular programs, or to make up deficiencies, or to shorten their courses.

5. High school graduates who are about to enter upon regular university courses and who desire to broaden their preparation for university work. To meet their needs, courses are offered in chemistry, French, German, Italian, physics, and Spanish.

6. Housewives, graduate nurses, social workers, students of public health, and all adults who are qualified to pursue with profit any course given, whether or not they are engaged in teaching or study.

Applications for Admission.

All persons who desire to attend any of the Intersession courses are urgently requested to notify the Dean of the Summer Sessions on or before Monday, April 16, using the blank form of application at the end of this bulletin.

All persons who desire to attend any of the courses of the Summer Session are urgently requested to notify the Dean of the Summer Sessions on or before Monday, June 4, using the blank form of application at the end of this bulletin.

Compliance with this request will facilitate the making of adequate arrangements by the University, and will make possible prompt communication with prospective students in case of change in the program.

Students who have not previously been in attendance in fall or spring semesters at the University of California (Berkeley or Los Angeles), and who plan to offer the work taken in the Intersession or Summer Session in partial satisfaction of the requirements for the Junior Certificate or for a bachelor's degree should file their credentials covering both high school and collegiate work with the Director of Admissions at least three weeks before the opening of the session in order that they may be properly advised regarding their status. (For Application Fee see page 12.)

Admission Requirements.

Attendants upon the exercises of the Summer Session and Intersession are divided into two broad classes:

A. Auditors.

Any adult is permitted to attend all the regular exercises of either of the sessions, as an auditor, upon the filing of an application and the payment of the regular tuition fee of $35. An auditor does not participate in recitations, does not take examinations, and hence does not receive credit.
B. Students.

(1) Persons under twenty-one years of age. Admission will be granted to persons who are under twenty-one years of age provided they are graduates of high schools or other secondary schools.

(2) Persons over twenty-one years of age. The University does not attempt, in general, to make inquiry concerning the educational qualifications of applicants for admission to the Summer Session or Intersession who are over twenty-one years of age. In granting admission to the Summer Session and Intersession in the case of an applicant over twenty-one years of age, it is assumed by the University that the applicant is either a high school graduate or that he has maturity and special fitness for the type of work he proposes to undertake. The instructor in charge of any Summer Session course may himself require of those who present themselves as students in his course any preliminary test, formal or informal, which he may deem essential to the work proposed.

Subject A.

The examination in Subject A will be given at 2 o'clock on Saturday, June 23. All students who register in the University for the first time and who wish to take work in English Composition are required to take this examination. The place of the examination will be announced on University bulletin boards.

Registration Dates.

The office of the Registrar will be open for the registration of Intersession students Saturday morning, May 12, from 8:30 to 12, and Monday, May 14, from 8:30 to 4:30, and for the registration of Summer Session students, Saturday, June 23, 8:30 to 12, and Monday, June 25, from 8:30 to 4:30.

Students who find it impossible to register for the Intersession or the Summer Session on the first Saturday or Monday may register as late as the second Monday. Students who register late, however, may enroll in the courses desired only when, in the opinion of the instructor, they can satisfactorily make up the work already done by the class.

Fees.

The tuition fee, regardless of the number of courses taken, will be thirty-five dollars ($35) for the Summer Session and thirty-five dollars ($35) for the Intersession; seventy dollars ($70) for both. Additional fees will be charged in certain courses in bacteriology, botany, chemistry, economics, education, physical education, physics, physiology, and zoology. The fees in each case are stated in the description of the course.

Persons who desire to attend courses or occasional lectures without examination or formal credit may secure an admission card for this purpose upon
payment of the regular fee, $35 for the Summer Session, or $35 for the Inter-
session, or they may secure from the Comptroller in California Hall tickets
admitting to single lectures, for which a charge of fifty cents each is made.

The entrance fee of $35 must be paid at the time of registration for the In-
tersession or the Summer Session. Refunds in case of withdrawals are made
only when the admission card and fee receipt are returned, and when the rea-
sons for withdrawal are satisfactory. If the admission card and fee receipt are
returned during the first week, a refund of not more than $30 may be granted;
second week, $17.50; third week, $7. After the third week, no refund will be
granted. Any student who is obliged to request a refund must do so at the
time of withdrawal, and must, at that time, return admission card and fee re-
ceipt to the Registrar.

Application Fee.—A fee of three dollars ($3) will be charged every appli-
cant for admission to the fall or spring sessions of the University of Cali-
ifornia, payable when the application is filed. This fee is payable to the
Regents of the University of California.

Classification and Numbering of Courses. Admission to Courses.

Group A. Courses carrying University credit.

I. UNDERGRADUATE COURSES.

(1) Lower Division Courses (numbered 1–99, or sometimes indicated
by letters if in subjects usually given in a high school). A lower division
course is a course open to freshmen or to sophomores and not counting as
upper division work in any department.

(2) Upper Division Courses (numbered 100–199). An upper division
course is an advanced course in a department of study that has been
pursued in the lower division or an elementary course in a subject of
such difficulty as to require the maturity of upper division students.

Students will not be permitted to register in upper division courses un-
less they have completed the courses named as prerequisites, or, if no
courses are definitely named as prerequisites, have attained junior stand-
ing in the University; accepted professional training, however, will be
regarded as sufficient preparation to justify admission to upper division
courses in the field in which the student has been trained, e.g., normal
school graduation for upper division courses in education, or practical ex-
perience in social work for upper division courses in social economics.

Students should note carefully prerequisites stated for the courses they
desire to elect.

II. GRADUATE COURSES (numbered 200–298). As a condition for enroll-
ment in a graduate course the student must submit to the instructor in
charge of the course satisfactory evidence of preparation for the work
proposed; adequate preparation consists normally of the completion of at least 12 units of upper division work, basic to the subject of the graduate course, irrespective of the department in which such basic work has been completed.

The admission of undergraduates to graduate courses is limited to seniors who have an average grade of at least B in the basic courses; the study-list limits in such cases are the limits imposed by the rules of the Graduate Division.

A student who includes in his program a graduate course (i.e., one of the courses numbered from 200–298) is not permitted to register for more than four units.* In general, auditors will not be admitted to graduate courses. Further directions concerning graduate study will be found on page 14.

III. Teacher's Courses (numbered 300–399)—Professional Teacher-Training Courses in the department of Education and courses in other departments that are specially intended for teachers or prospective teachers.

IV. Certain Professional Courses (numbered 400–499) in departments other than education.

**Group B.** Courses meeting requirements for credentials, certificates, and upgrading.

This group, numbered 600–799, is especially designed to meet the requirements of independent agencies for credentials, certificates, and upgrading and contains courses briefly designated as "Vocational Courses." Junior standing or the equivalent is prerequisite to courses numbered 700–799.

All Summer Session courses which are identical, or nearly so, with courses given during the fall or spring sessions at Berkeley, are distinguished by the letter "S" prefixed to the regular number of the course.

In each department in which Intersession courses are given, such courses are listed separately from the Summer Session courses.

**Credit.**

Credit toward a university degree will be given only to attendants who are qualified to do systematic university work, and is in every case subject to the requirement that the student shall at some time qualify in the University as a regular matriculant, either by passing the entrance examinations, or otherwise.

* In the case of graduate students exceptions to this rule may be made only by permission of the Dean of the Graduate Division. In the case of undergraduate students, no exceptions will be made.
In general, credit will be given at the rate of one unit for fifteen exercises. A course of five recitations or lectures weekly during six weeks may receive a credit of two units. Credit may be given, in due proportion, for a smaller number of exercises, when these are of more than the usual length (which for lectures and recitations is about fifty minutes). A recitation or lecture presupposes about two hours of study outside of the classroom; laboratory or other exercises which do not require outside preparation are estimated at a lower rate than recitations or lectures.

The maximum amount of credit obtainable during the Summer Session or Intersession by a student who devotes his whole time to courses strictly of university grade, is from four to six units, according to the character of the work selected; a student who includes in his program a graduate course is not permitted to register for more than four units of credit.* A bachelor's degree represents 124 or more units of credit, distributed according to the special requirements of the college or department in which the student is enrolled.

Graduate Students.

No student is assumed to be in graduate standing until his credentials have been evaluated and approved. To secure an adjustment of status, all prospective candidates for higher degrees or for certification of completion of the teacher-training curricula should file their credentials with the Dean of the Graduate Division at least four weeks before the opening of the Summer Session.

After evaluation of credentials, such students should submit their study lists to the graduate adviser in the department of the major subject for approval on the basis of the Dean's statement regarding their status. (For Application Fee see page 12.

Summer Session Work Toward Higher Degrees.

In planning a program for a higher degree it must be borne in mind that the members of the regular staff are not all on duty in the summer months. Admission to candidacy does not constitute a claim upon the vacation time of members of the faculty for direction of thesis work.

Students who plan to offer Summer Session courses in partial fulfillment of the requirements for the master's degree should be careful to select only courses especially designated as acceptable for this purpose. Not all the upper division courses offered in the Intersession and the Summer Session may be offered in satisfaction of the requirements for the master's degree. Following is the complete list of courses given during the Intersession and Summer Session of 1934 which will be accepted in partial fulfillment of the minimum

* In the case of graduate students exceptions to this rule may be made only by permission of the Dean of the Graduate Division. In the case of undergraduate students, no exceptions will be made.
requirement of 20–24 units of advanced work for the master's degree or 20 units for the Certificate of Completion of the teacher-training curricula. With reference to the distribution of upper division and graduate work, the student should consult the Announcements of the Graduate Division and of the School of Education. Before undertaking any of the courses listed below, the student should ascertain from the graduate adviser of the department whether or not he should first complete preparatory fundamental courses.

Two Summer Sessions, or one Summer Session and one Intersession, may be rated as the equivalent of one half-year for purposes of residence for the master's degree. A student is not regarded as a student in residence unless he is actually attending regularly authorized university exercises amounting to at least 4 units per week of upper division or graduate grade during a regular session, or to at least 2 units of similar work during a Summer Session.

The Master's Degree.

Students will pursue one of the following plans for the fulfillment of the requirements for the master's degree, depending on the department selected
for the major work. Departments are required to adopt one or the other of the plans, and are expected to adhere to such choice for not less than two successive academic years.

Upon recommendation of the department concerned, the Graduate Council may grant special permission to an individual student to follow the plan other than that adopted by the department of his major work.

**Plan 1.**—There are required 20 semester units and in addition a thesis. The courses must be graduate courses or upper division undergraduate courses. At least 8 of the 20 units must be strictly graduate work in the major subject; no unit credit is allowed for the thesis. It is expected that the work of the graduate course, or courses, together with the thesis, will ordinarily amount to not less than half of the entire work presented for the degree. Provided the foregoing general and the special departmental requirements be met, the work may be distributed among any courses numbered in the 100 or 200 series. The student is subject to guidance by the major department respecting the distribution of his work among the departments.

With the special approval of the Graduate Council, the candidate may satisfy the 20-unit requirement for the degree by a comprehensive supervised plan of research leading to an acceptable thesis, the schedule for each candidate to be as follows:

Research (designation and number of course), 8–12 units per semester, or 2–4 units per Summer Session.

**Plan 2.**—There are required 24 units of upper division and graduate courses, of which at least 12 units must be in strictly graduate courses in the major subject. The student is subject to guidance by the major department respecting the distribution of his work among the departments.

A comprehensive final examination in the major subject, to be of such nature and to be conducted in such manner as may be determined by the department concerned, is required of every candidate.

Only courses in which the student is assigned grades "A," "B," or "C" may be counted in satisfaction of the requirements for the master's degree. Furthermore, the student must maintain an average of two grade points per unit in those courses and in all courses elected during the period of candidacy for the master's degree. Three points per unit are assigned to grade "A"; two points to grade "B"; one point to grade "C"; none to grades "D," "E," or "F." (Applies to both plans.)

Special departmental requirements additional to the general requirements described above may be found in the Departmental Graduate Announcements.
Choice of plans has been made by the several departments and groups as follows:

The Doctor's Degree.

The work for the Ph.D. is not estimated in units of credit, but must be specially planned for every candidate. There are required normally four years of university residence for a bachelor's degree, one additional year for a master's degree, and at least two additional years for a doctor's degree; and while advanced credit may be given for work done at other universities, the candidate's final year of residence for any degree must ordinarily be spent in the University of California.

Except by special arrangement work for the Ph.D. can ordinarily be pursued only during regular sessions. While one Summer Session is not accepted toward the minimum residence for the Ph.D. degree, an Intersession and Summer Session immediately following as constituting the equivalent of a continuous semester, may be accepted toward the minimum residence requirement.

In every case students desiring credit for upper division or graduate courses should make definite arrangements therefor with the instructor at the beginning of the session. The specific courses which will be recognized as upper division or graduate courses toward a higher degree will be announced in a supplementary leaflet to be issued shortly before the opening of the session. Students electing work in the Summer Session or Intersession as part of a program for a higher degree should consult the Announcement of the Graduate Division for information regarding facilities and departmental requirements. Graduate students should consult, also, the Dean of the Graduate Division at his office in 113 California Hall.

Certificates of Completion of Teacher-Training Curricula.

The University issues formal certificates of completion of the Teacher-Training Curricula only to those who hold a bachelor's degree and who have completed the professional and academic requirements in accordance with the regulations of the State Department of Education and of the School of Education. In Berkeley, training is offered leading to an official recommendation to the State Department of Education for the following credentials: Administration, Supervision, General Secondary, Junior College, Junior High-Elementary. A year of resident work is required for official recommendation. The University is authorized by the State Department of Education to recommend for the following credentials in addition to those listed above: Research, Health Education, Physical Education, Vocational Education, Art (through affiliation with the California School of Fine Arts), Librarianship (students in the School of Librarianship may meet the requirements for the Special Credential in Librarianship), and Child Welfare and Attendance (Graduates of the Curriculum in Social Service may qualify for the credential in Child Wel-
fare and Attendance.) Graduates of other universities and colleges should follow the instruction given on pages 14 and 17 concerning the evaluation of transcripts by the Dean of the Graduate Division. For further information consult the Announcement of the School of Education or the Credential Counselor, Room 107 Haviland Hall. Certificates of record for Summer Session or Intersession work, whether of matriculation or of university grade, will be issued by the Registrar upon application of any student in the session; and personal recommendations from instructors may be obtained by school officers and others through the office of the Appointment Secretary.

Final Examinations.

By a general University rule, final examinations must be held in all courses with certain exceptions to be determined and announced during the first week of the session. In general, the final examinations will be held in lieu of the last recitation or other scheduled period for the course in question. Special examinations to suit the convenience of individuals will not be given.

If in a given course a final examination is required there can be no individual exemption from the examination. A student who fails to pass the examination does not receive credit for the course. Special examinations and reexaminations in summer courses are not permitted.

Other Requirements Concerning Credit.

Students who apply for credit in any course will be expected not only to complete all the work and examinations of the course but also to continue in regular attendance upon the class exercises until the close of the session; and students will be required to hand in all their work by that time, in order that the instructor may make his report in due season. Students are not authorized to continue any part of the work beyond the close of the session. No provision is made for reexamination or supplementary work for the removal of deficiencies.

Scholarship Grades.

The final result of the work of students in every course of instruction (graduate and undergraduate) in the Summer Session will be reported to the Registrar in the same grades* as are employed in the regular sessions.

* Grades—A, excellent; B, good; C, fair; D, barely passing; E, conditioned; F, failure. It should be noted with respect to grade E that in the Intersession and Summer Session no reexamination or special examinations are provided for the removal of conditions.

Grade points, or quality units, will be assigned as follows: grade A, three points per unit; B, two points per unit; C, one point per unit; D, no points per unit; E, or F, minus one point per unit. For further information see the Circular of Information, Undergraduate Division at Berkeley.
Undergraduate Curricula.

The University maintains at Berkeley six colleges, in each of which there is an undergraduate curriculum of four years, leading to a bachelor's degree, as follows:

The College of Letters and Science: to the degree of Bachelor of Arts:

The Colleges of Applied Science: to the degree of Bachelor of Science:

Curricula in Public Health Nursing and in Nursing Education.

Students who complete the curriculum in public health nursing will be granted certificates which will admit them to the examination conducted by the State Department of Public Health for the credential of Public Health Nurse. Students who complete the curriculum in nursing education will be granted certificates in nursing education. This curriculum is designed to supplement the basic training of nurses who desire to fill administrative, supervisory and teaching positions in schools of nursing.

Requirements for Admission.—Either curriculum is open to graduates of schools of nursing approved by the University of California who possess the California credential of Registered Nurse and who are eligible for admission to the University as regular undergraduate students. Students of nursing may be admitted to either curriculum for the final eight months period of their elective training when such election is approved by their schools. The general University requirement in relation to Subject A (English Composition) applies to students who enroll in either curriculum. Economics 1A (Principles of Economics), 3 units, and Psychology 1A (General Psychology), 3 units, are prerequisite to admission to either curriculum. Both Economics 1A and Psychology 1A are generally available in the Intersession and Summer Session at Berkeley and in the Summer Session at Los Angeles.

Application for Admission to the University.—Forms of application and a form for certificates of the high school or collegiate record will be supplied to any applicant for admission, upon request, by the Director of Admissions. Applications should be submitted as far in advance of the date of registration as possible in order to allow time for the evaluation of credentials.

The Curriculum in Nursing Education requires the completion of 32 units approved by the Committee on Curricula for Nurses, with as many grade points as time units in the courses undertaken.

The Curriculum in Public Health Nursing requires the completion of 38 units during three semesters of residence of which six units (taken during the third semester) must consist of field work in Public Health Nursing. Conditions as to approval of program and attainment of grade points are identical with those in the curriculum in Nursing Education.

Attendance at Intersessions and Summer Sessions.—Not more than 18 units of credit in either curriculum may be secured by attendance at Intersessions and Summer Sessions. The remaining units must be secured in the spring or
fall semesters. Students contemplating satisfying some of the requirements in Intersession or Summer Session should consult the Chairman of the Department of Hygiene.

Accommodations and Expenses.

A list of approved living accommodations where students may obtain board and lodging at prices ranging from $25 to $65 a month is compiled annually by the Dean of Women and will be available about April 1. The houses on this list have been inspected with a view to sanitation, orderliness and safety. To insure their protection and comfort, students are urged to consult this list before making their plans for accommodations.

The following table will enable the student to form an estimate of the expense, exclusive of railway fare, to be met in attending the six weeks of Summer Session:

The Associated Students' Store carries all textbooks for Summer Session courses, as well as stationery and other supplies.
International House.

International House, conveniently located on the campus, not only provides comfortable living accommodations, but large and comfortable social rooms are also placed at the disposal of the students.

The purpose of International House is to promote international understanding and peace by bringing the representatives of the many races and nationalities together into intimate and friendly association. Its facilities will be available to the registered students of the Intersession and the Summer Session. The residents of International House during this period will have the privilege of partaking also in a program centering around the problems of international relationships. Plans are now being formed with the advice of the International Relations Committee of the University for such a program.

The cost of residence in International House is nominal and in spite of the extensive facilities compares favorably with other living accommodations in the community.

A descriptive leaflet of the facilities and proposed program of activities, giving the cost of the same, will be sent on application to the Director of International House, University of California, Berkeley.

Library.

Throughout the Summer Session the general Library of the University will be open from 8 a.m. to 10 p.m., Monday to Friday inclusive, 8 a.m. to 6 p.m. Saturday, and from 1 p.m. to 5 p.m. Sunday. During the Intersession, the hours will be 8 a.m. to 6 p.m., Monday to Saturday inclusive; closed Sunday.

Full library privileges, including the home use of books, as accorded to regular University students, will be extended, without additional fee, to students in the summer courses, upon presentation of registration certificates.

Appointment Secretary.

Students of the Intersession and Summer Session, as well as former graduates and students of the University of California, are entitled to the service of the office of the Appointment Secretary at 102 Haviland Hall. Teachers who are candidates for California positions should, if possible, send for and fill out registration blanks prior to the opening of the session in order that confidential information regarding their scholarship and teaching experience may be secured in advance and their recommendations prepared for distribution. Though there is no fee for placement services, registrants pay five dollars, which is used to defray the expense of copying their letters of recommendation. The office is open for the service of school officials from 9 a.m. to 12 m. and from 1 p.m. to 5 p.m., daily, except on Saturday, when it
closes at noon. Candidates' hours are from 10:30 a.m. to 12 m. and from 2 p.m. to 5 p.m. The office will render more effective aid to superintendents and principals if it is notified in advance of the specific requirements of positions and the hour at which appointments are desired.

The Daily Californian.

The Daily Californian is issued by the Associated Students twice each week throughout the Summer Session. In addition to Summer Session news, it contains announcements of lectures, concerts, exhibits, meetings of University organizations, and information concerning the library, museums, art galleries, observatories, and other parts of the University of interest to visitors. The subscription price is $1, payable at the office of the Associated Students of the University of California in John Morton Eshleman Hall. Subscription is included with other privileges in the Summer Session Associated Students membership fee of $1. A Californian is also issued weekly during the Intersession.

Music and Drama.

The Committee on Music and Drama is planning for the Summer Session of 1934 the following activities:

1. A series of modern plays in Wheeler Auditorium.
2. A series of four recitals by the Pro Arte Quartet, through the generosity of Mrs. Elizabeth Sprague Coolidge; in Wheeler Auditorium, July 6, 13, 20, and 27, at 4 p.m. These recitals are intended only for students and faculty.
4. One or more outstanding dramatic productions in the Greek Theatre.

The University Young Men's Christian Association with its program of social service, religious discussion, and personal counseling is open without cost to all men of the University irrespective of race or creed. A reading room and a recreation room are available for use in its building at 2227 Union Street. The Association secretaries will be glad to render assistance in finding rooms, in arranging contacts with faculty members, or in any way desired.

Y. W. C. A.

The building of the Young Women's Christian Association of the University of California, situated on the corner of Allston Way and Union Street, a block west of Sather Gate, will be open during the Summer Session for the use of all women students. The building provides reading and rest rooms, a sunny patio, a foyer for students from other countries, and an information bureau. Information regarding professional services in the Y.W.C.A. either in this country or abroad, may be obtained at the Y.W.C.A.
Conferences for Elementary School Principals.

During the Summer Session of 1934 a conference for elementary school principals will be held on the Berkeley campus under the direction of the Department of Education. The meetings have been scheduled for July 10, 11, and 12.

Each conference will be planned and conducted in the same manner as the one held at Berkeley in the summer of 1933. The problems will be chosen from those submitted by the principals. A general discussion of each outstanding problem will be followed by a series of round table discussions conducted by the principals attending the conference. The registration fee is $3.

Information concerning the conference may be obtained by addressing Professor George C. Kyte, School of Education, University of California, Berkeley, California.

A similar conference will be held on the Los Angeles campus, the meetings having been scheduled for July 17, 18, and 19. The registration fee is $1. Information may be obtained by addressing Professor Charles W. Waddell, Department of Education, University of California at Los Angeles, Los Angeles, California.

School Executives Conference.

During the Summer Session of 1934, the fourth annual conference for school executives will be held under the auspices of the Department of Education.

The conference will be two weeks in length, July 16 to 27, inclusive. No prerequisites of admission will be required, no examinations imposed, and no University credit given. The registration fee will be $10.

Conference for Junior College Principals, Deans, and Teachers.

During the Summer Session for the year 1934, July 5 and 6, there will be held a conference for junior college administrators and teachers.

The topics to be considered are:

1. The underlying philosophy of the junior college.
2. Problems of curricula.
3. Problems of administration.
4. The guidance program in the junior college.
5. Relations of the junior college to higher institutions.
6. Forward movement in the junior college field.
7. Additional problems to be suggested by members of the conference.
Training Course for Health Officers; Children's Recreation

The program for the two days will be announced later. Junior college teachers and administrators will be on the program each day of the conference. Sessions will be held from 9:00 to 11:00 a.m. and from 1:30 to 3:00 p.m.

There will be no charge connected with the conference.

Training Course for Health Officers.

During the Intersession and Summer Session of 1934 a twelve weeks' training course for health officers will be held. The course will be open to any person with the degree of doctor of medicine, but because of the nature of the work the class will be limited in number. The first six weeks of the course (Intersession) will be conducted in Berkeley and will consist of class instruction, group discussions and field demonstrations. The first four weeks of the Summer Session will be spent in the San Joaquin County Health Unit. During this period each student will receive practical field experience. In the last two weeks each student will be required to make a survey of the health work in a community near enough to Berkeley so that frequent conferences can be held with the faculty members.

The subjects covered will be public health administration, vital statistics, epidemiology, communicable disease, child hygiene, parasitology, and the integration of public health nursing, the public health laboratory and sanitary engineering with the public health program.

The course will not carry University credit, but certificates of attendance will be issued to those completing it in a satisfactory manner. The regular fee of the Intersession ($35) and of the Summer Session ($35) will be charged. There will be no laboratory fees.

Application for admission should be sent to the Chairman, Department of Hygiene, University of California, Berkeley, and should be accompanied by a statement of professional training and of experience.

Children's Recreation Service.

The University, with its fields, gymnasium, and swimming pools in the southwest corner of the campus, offers facilities for children's recreation. During the morning hours, 9 to 12, on Monday, Tuesday, Wednesday, Thursday, and Friday, a systematic program of instruction will be conducted as follows:

For girls: swimming, dancing, archery, hockey, games, handicraft and applied art.

For boys: swimming, boxing, tumbling, sports, handicraft and applied art.
Children from the ages of six to fourteen years will be enrolled and grouped as follows: Juniors, six to eight years; Intermediates, nine to eleven years; Seniors, twelve to fourteen years. Activities will be arranged to meet the needs of the children in the various age groups.

A fee of $10 will be charged for each child. This fee will be payable at the Comptroller's Office, California Hall, on Saturday, June 23. Enrollment will take place on the same day between the hours of 9:00 a.m. and 4:00 p.m., in Office 103, Gymnasium for Men; the fee receipt must be presented at the time of enrollment. Parents wishing to insure the registration of their children should make application early. Mr. Albert W. Dowden will be in charge of the recreational service and of the details of organization. Applications should be addressed to Department of Physical Education for Men, University of California.
THE UNIVERSITY

The University of California was founded in 1868 and is, by the terms of its charter, an integral part of the educational system of the state. At Berkeley are the Graduate Division; the Colleges of Letters and Science, Commerce, Agriculture, Engineering, Mining, and Chemistry; the Schools of Architecture, Education, Jurisprudence, Librarianship, and the instruction of the first year of the Medical School. At Mount Hamilton is the Lick Astronomical Department (graduate research). In San Francisco are the Hastings College of the Law, the Medical School (second, third, fourth, and fifth years, including Hospitals), the College of Dentistry, and the California College of Pharmacy. In Los Angeles are the University of California at Los Angeles, the Branch of the College of Agriculture in southern California, and the Los Angeles Medical Department (graduate instruction only). At Riverside is the Branch of the College of Agriculture in southern California including the Citrus Experiment Station and Graduate School of Tropical Agriculture. At La Jolla is the Scripps Institution of Oceanography. At Davis is the Branch of the College of Agriculture. At Berkeley there are 50 departments of instruction; about 14,914 students in 1933-34, including the Summer Sessions of 1933; the general library, supplemented by the Bancroft, Morrison, Lange, and other collections; museums and laboratories; and the agricultural experiment grounds and station, which are invaluable adjuncts of the farming, orchard, and vineyard interests of the state. In San Francisco there are about 945 students. There are at the University of California at Los Angeles about 8,255 students, including those attending the 1933 Summer Session.

LIBRARY

The General Library, housed in the building made possible by the bequest of the late Charles Franklin Doe, now contains more than 850,000 volumes. It is constantly augmented by donations and exchanges and by large purchases of books with the income from the Michael Reese, Jane K. Sather, E. A. Denicke, Alumnus, Meyer, Carpentier, and other funds. Books are specially bought each year for the particular courses offered during the Summer Session. All Summer Session students may enjoy full privileges of the Library, including the drawing of books, upon presentation of registration certificates.
The Bancroft Library contains several thousand books and manuscripts referring to Spanish American and Western American history, all of which are available to graduate students at individual desks, and to undergraduates for work in courses.

Several of the departments of instruction have collections of books, useful for ready reference and classroom work.

**Museums and Laboratories**

For students pursuing research and graduate study, laboratories and laboratory equipment are available. With the completion of the Life Sciences Building in 1930, all of the scientific departments are adequately equipped with museums and laboratories.

The Museum of Anthropology, on the Berkeley campus since 1931, contains over 100,000 specimens illustrating the history and development of culture from the earliest times. The Museum was founded by Mrs. Phoebe A. Hearst, and is the largest of its kind west of Chicago.

THE UNIVERSITY

The University of California was founded in 1868 and is, by the terms of its charter, an integral part of the educational system of the state. At Berkeley are the Graduate Division; the Colleges of Letters and Science, Commerce, Agriculture, Engineering, Mining, and Chemistry; the Schools of Architecture, Education, Jurisprudence, Librarianship, and the instruction of the first year of the Medical School. At Mount Hamilton is the Lick Astronomical Department (graduate research). In San Francisco are the Hastings College of the Law, the Medical School (second, third, fourth, and fifth years, including Hospitals), the College of Dentistry, and the California College of Pharmacy. In Los Angeles are the University of California at Los Angeles, the Branch of the College of Agriculture in Southern California (including station at Riverside), and the Los Angeles Medical Department (graduate instruction only). At Riverside is the Branch of the College of Agriculture in southern California including the Citrus Experiment Station and Graduate School of Tropical Agriculture. At La Jolla is the Scripps Institution of Oceanography. At Davis is the Branch of the College of Agriculture. At Berkeley there are 50 departments of instruction; about 14,914 students in 1933–34, including the Summer Sessions of 1933; the general library, supplemented by the Bancroft, Morrison, Lange, and other collections; museums and laboratories; and the agricultural experiment grounds and station, which are invaluable adjuncts of the farming, orchard, and vineyard interests of the state. In San Francisco there are about 945 students. There are at the University of California at Los Angeles about 8,255 students including those attending the 1933 Summer Session in Los Angeles.

Session of 1934 in Los Angeles.

The University’s seventeenth annual Summer Session in Los Angeles will begin Friday, June 29, 1934, and will continue until Friday, August 10, the session covering six weeks.

In the Los Angeles Summer Session the number of students registered in 1918, the first session, was 630; in 1933, 1,478.
Purpose of the Session;

The courses in the Summer Session are designed to meet the needs of the following persons:

1. Teachers who wish to increase their professional skill, to revise and extend their knowledge of a chosen field, or to qualify in new subjects, preparing to meet the special demand for instruction in various fields.

Teachers who desire to prepare for service in vocational schools and classes maintained under the provisions of the State and Federal Vocational Education acts and the State Continuation Education Act. Courses designed primarily for this purpose are listed under the Department of Education in this bulletin.

2. School superintendents, supervisors, and other officers.

3. Graduate students.

4. Undergraduate students, and especially those registered in the fall or spring sessions of the University, who may use a portion of the vacation to take up studies which they are unable to include in their regular programs, or to make up deficiencies, or to shorten their courses.

5. High school graduates who are about to enter upon regular university courses and who desire to broaden their preparation for university work. To meet their needs, courses are offered in French, German, Spanish, and mathematics.

6. Housewives, graduate nurses, social workers, Americanization workers, students of public health, and all adults who are qualified to pursue with profit any course given, whether or not they are engaged in teaching or study.

Applications for Admission.

All persons who desire to attend any of the courses are urgently requested to notify the Dean of the Summer Session, 405 Hilgard Avenue, Los Angeles (OXford 1071, or West Los Angeles 31171), on or before Friday, June 15, using the blank form of application at the end of this bulletin.

Compliance with this request will facilitate the making of adequate arrangements by the University, and will make possible prompt communication with prospective students in case of change in the program.

Summer Session students who do not wish to enter the regular sessions of the University of California at Los Angeles are not required to submit transcripts of record.

New students who plan to offer work taken in the Summer Session toward a degree or certificate at the University of California should submit full credentials (see Application Fee, page 13) covering high school and collegiate
studies to the Director of Admissions of the University of California at Los Angeles. This should be done at least three weeks before the opening of the session in order that they may be properly advised regarding their status.

Admission Requirements.

Attendants upon the exercises of the Summer Session are divided into two broad classes:

A. Auditors.—Any adult is permitted to attend all the regular exercises of the session, as an auditor, upon the filing of an application and the payment of the regular tuition fee of $35. An auditor does not participate in recitations, does not take examinations, and hence does not receive credit.

*B. Students.

(1) Persons under 21 years of age. Admission will be granted to persons who are under 21 years of age provided they are graduates of high schools or other secondary schools.

(2) Persons over 21 years of age. The University does not attempt, in general, to make inquiry concerning the educational qualifications of applicants for admission to the Summer Session who are over 21 years of age. In granting admission to the Session in the case of an applicant over 21 years of age, it is assumed by the University that the applicant is either a high school graduate or that he has maturity and special fitness for the type of work he proposes to undertake. The instructor in charge of any Summer Session course may himself require of those who present themselves as students in his course any preliminary test, formal or informal, which he may deem essential to the work proposed.

Subject A.

The examination in Subject A will be given at 2 o'clock on Saturday, June 30. All students entering the University for the first time, who wish to take work in English composition during the Summer Session, are required to take this examination. The place of examination will be announced on the University bulletin boards.

Registration Dates.

Registration for Summer Session students will be conducted on the campus of the University of California at Los Angeles, Friday, June 29 and Saturday, June 30.

* Admission to the Summer Session does not carry with it a guarantee of admission to the regular session. For further information regarding admission requirements, and regulations concerning credit, please address the Office of Admissions, University of California at Los Angeles, 405 Hilgard Avenue, Los Angeles, California.
Students who find it impossible to register on the opening days of the session may register as late as the second Monday, but such students may enroll in the courses desired only when, in the opinion of the instructor, they can satisfactorily make up the work already done by the class.

Fees.

The tuition fee, regardless of the number of courses taken,* will be thirty-five dollars ($35) (there is no non-resident fee). The fee must be paid at the time of registration. Payment of fees by cash is preferred. If checks are presented they must not exceed the total amount of fees to be paid. Checks should not be mailed in advance. Laboratory fees will be charged in certain courses. The amount in each case is stated in the description of the course and is payable at the time of registration.

Persons desiring to attend courses or occasional lectures without examination or formal credit may secure for this purpose an auditor's ticket upon payment of the regular fee, $35, or they may secure from the cashier in 42 Library, window number 2, tickets admitting to single lectures, for which a charge of fifty cents each is made.

The entrance fee of $35 must be paid at the time of registration. Refunds in cases of withdrawal are made only when the admission card and fee receipt are returned, and when the reasons for withdrawal are satisfactory. If the admission card and fee receipt are returned during the first week of the Summer Session, a refund of not more than $30 may be granted; during the second week, of $17.50; during the third week, of $7. After the third week, no refund will be granted. Any student who is obliged to request a refund must do so at the time of withdrawal, and must, at that time, return admission card and fee receipt to the Registrar.

Application Fee.—A remittance of three dollars ($3) must accompany the application of every person seeking admission to regular sessions of the University of California at Los Angeles. This fee is payable to The Regents of the University of California. No application fee is necessary to enter the summer session.

Classification and Numbering of Courses; Admission to Courses.

Courses are classified and numbered as follows:

I. UNDERGRADUATE COURSES.

(1) Lower Division Courses (numbered 1–99, or sometimes indicated by letters if in subjects usually given in a high school). A lower division course is a course open to freshmen or to sophomores and not counting as upper division work in any department.

* Not more than six units of credit may be earned by a student in the Summer Session.
(2) Upper Division Courses (numbered 100–199). An upper division course is an advanced course in a department of study that has been pursued in the lower division or of elementary work in a subject of such difficulty as to require the maturity of upper division students. Students will not be permitted to register in upper division courses unless they have completed the courses named as prerequisites, or, if no courses are definitely named as prerequisites, have attained junior standing in the University; accepted professional training, however, will be regarded as sufficient preparation to justify admission to upper division courses in the field in which the student has been trained, e.g., normal school graduation for upper division courses in education, or practical experience in social work for upper division courses in social economics.

Students should note carefully prerequisites stated for the courses they desire to elect.

II. Graduate Courses (numbered 200–298). As a condition for enrollment in a graduate course the student must submit to the instructor in charge of the course satisfactory evidence of preparation for the work proposed; adequate preparation will consist normally of the completion of at least 12 units of upper division work, basic to the subject of the graduate course, irrespective of the department in which such basic work may have been completed.

The admission of undergraduates to graduate courses is limited to seniors who have an average grade of at least B in the basic courses; the study-list limits in such cases are the limits imposed by the Provost of the University.

Admission to graduate courses in the Summer Session does not carry with it the right of admission to graduate study in the regular sessions of the University of California at Los Angeles.

A student who includes in his program a graduate course (i.e., one of the courses numbered from 200 to 298) is not permitted by regulation of the University (Regulation 620) to register for more than four units.* In general, auditors will not be admitted to graduate courses. Further directions concerning graduate study may be had by consulting the Registrar.

III. Teachers' Courses.—Professional Teacher-Training Courses (numbered 300–399) in the Department of Education and courses in other departments that are specially intended for teachers or prospective teachers.

IV. Certain Professional Courses (numbered 400–499).

All Summer Session courses which are identical, or nearly so, with courses given during the fall or spring sessions at Los Angeles, are distinguished by the letter "S" prefixed to the regular number of the course.

*In the case of graduate students exceptions to this rule may be made only by permission of the Provost of the University, who is in charge of graduate study. In the case of undergraduate students, no exceptions will be made.
Changes in Study Programs.

Changes in study programs after the study-lists have been filed may be made only by permission of the Dean, to be obtained by written petition filed with the Registrar not later than Monday, July 27.

Credit.

Credit toward a university degree is given only to attendants who are qualified to do systematic university work, and is in every case subject to the requirement that the student shall at some time qualify in the University as a regular matriculant, either by passing the entrance examinations or otherwise.

Acceptance of a particular course toward any university degree is subject to the approval of the authorities of the college offering the degree. For the requirements for the several degrees given by the departments at Berkeley, see the Circular of Information, Undergraduate Division, University of California, Berkeley. For the University of California at Los Angeles requirements, see the Circular of Information, University of California at Los Angeles.

In general, credit will be given at the rate of one unit for fifteen exercises. A course of five recitations or lectures weekly during six weeks may receive a credit of two units or during three weeks may receive a credit of one unit. Credit may be given, in due proportion, for a smaller number of exercises, when these are of more than the usual length (which for lectures and recitations is about fifty minutes). A recitation or lecture presupposes about two hours of study outside of the classroom; laboratory or other exercises which do not require outside preparation are estimated at a lower rate than recitations or lectures.

The maximum amount of credit obtainable by a student who devotes his entire time to courses strictly of university grade during the Summer Session is from four to six units, according to the character of the work selected; a student who includes in his program a graduate course is not permitted by regulation of the University (Regulation 620) to register for more than four units of credit in the Summer Session.* A bachelor’s degree represents 124 or more units of credit, distributed according to the special requirements of the college in which the student is enrolled.

For the master’s degree there are required from 20 to 24 units of work in upper division and graduate courses, according to the department selected for the major work. For specific requirements for the Master’s degree the department concerned should be consulted; the general requirements are given in printed material to be had upon application to the Registrar.

* In the case of graduate students exceptions to this rule may be made only by permission of the Provost of the University, who is in charge of graduate study. In the case of undergraduate students, no exceptions will be made.
There are required normally four years of university residence for a bachelor's degree, one graduate year for a master's degree; at least one graduate year for the secondary teaching credential; and though advanced credit may be given for work done at other universities, the candidate's final year of residence for any degree must ordinarily be spent in the University of California at Los Angeles.

Two Summer Sessions may be rated as the equivalent of one half-year for purposes of residence for the master's degree. A student is not regarded as a student in residence unless he is actually attending regularly authorized university exercises amounting to at least 4 units per week of upper division or graduate grade during a regular session, or of at least 2 units of similar work during a Summer Session.

Two Summer Sessions are accepted as the equivalent of one half-year of residence for the bachelor's degree; but the amount of credit (the number of units) that may be completed during two Summer Sessions will not exceed three-fourths of the amount that could be completed by an undergraduate student during a single fall or spring session. Students will find it almost impossible to meet the requirements of the senior year by attendance in two successive summer terms, and one spring or fall session of the University.

In every case students desiring credit for upper division or graduate courses should make definite arrangements therefor with the instructor at the beginning of the session. A list of the specific courses which will be recognized as upper division or graduate courses toward a higher degree, will be found on pages 23 and 24 of the bulletin and will also be published in the supplementary announcement to be issued shortly before the opening of the session.

Transcripts of record for Summer Session work, whether of matriculation or of university grade, will be issued by the Registrar upon application of any student in the session; and personal recommendations from instructors may be obtained by school officers and others through the office of the Appointment Secretary.

**Final Examinations.**

By a general University rule, final examinations must be held in all courses with certain exceptions to be determined and announced during the first week of the session. In general, the final examination will be held in lieu of the last recitation or other scheduled period for the course in question. Special examinations to suit the convenience of individuals will not be given.

If in a given course a final examination is required there can be no individual exemption from this examination. A student who fails to pass the examination does not receive credit for the course. Special examinations and re-examinations in summer courses are not permitted.
Other Requirements Concerning Credit.

Students who apply for credit in any course will be expected not only to complete all the work and examinations of the course but also to continue in regular attendance upon the class exercises until the close of the session; and students will be required to hand in all their work by that time, in order that the instructor may make his report in due season. Students are not authorized to continue any part of the work beyond the close of the session. No provision is made for re-examination or supplementary work for the removal of deficiencies.

Scholarship Grades.

The final result of the work of students in every course of instruction (graduate and undergraduate) in the Summer Session will be reported to the Registrar in the same grades* as are employed in the regular sessions.

Undergraduate Curricula.

The University maintains at Berkeley six academic colleges, in each of which there is an undergraduate curriculum of four years, leading to a bachelor's degree, namely:

The College of Letters and Science: to the degree of Bachelor of Arts;
The Colleges of Applied Science: to the degree of Bachelor of Science—
in the College of Commerce;
in the College of Agriculture—in any one of the following: plant science, animal science, entomology and parasitology, agricultural economics, forestry, landscape design;
in the College of Engineering—in any one of the following branches of engineering: agricultural, electric communications, electric power, irrigation, marine engineering and naval architecture, mechanical, railroad, sanitary and municipal transportation;
in the College of Mining—in mining, in metallurgy, in economic geology, in petroleum engineering;
in the College of Chemistry—in chemistry, in chemical technology.

The University maintains at the University of California at Los Angeles three colleges, in each of which there is an undergraduate curriculum of four years, leading to a bachelor’s degree, as follows:

The College of Letters and Science: to the degree of Bachelor of Arts.
The Teachers College: to the degree of Bachelor of Education.

* Grades—A, excellent; B, good; C, fair; D, barely passing; E, conditioned; F, failure. It should be noted with respect to grade E that in the Summer Session, no re-examinations or special examinations are provided for the removal of conditions.

Grades points or quality units will be assigned as follows: grade A, three points per unit; B, two points per unit; C, one point per unit; D, no points per unit; E or F, minus one point per unit. For students graduating in certain curricula there are required grade points equal in number to the number of units of work undertaken. For further information, see the Circular of Information, Undergraduate Division at Berkeley, and the Circular of Information, University of California at Los Angeles.
The Branch of the Collège of Agriculture in Southern California: to the degree of Bachelor of Science, in the curriculum in subtropical horticulture.

Graduate study in a number of fields leading to the degrees of Master of Arts and Master of Science and to the general secondary and junior college teaching credentials is available.

There is also given at the University of California at Los Angeles the work of the first two years of the following curricula:

Chemistry  Engineering
Commerce  Mining

The University has no preparatory department.

Professional Curricula.

Professional curricula leading to appropriate degrees in architecture, education, jurisprudence, medicine, public health, optometry, dentistry, and pharmacy are described in separate bulletins, obtainable free upon application to the University of California Press, Berkeley, California.

College of Letters and Science.

The curriculum of the College of Letters and Science is divided into three essential parts:

1. Requirements to secure breadth of culture. The student is asked to select courses within certain groups representing the fundamental types of intellectual endeavor. Although these requirements are limited to the lower division, the student may continue liberal studies of his own choice during the last two years.

2. Requirements to provide for intensive study. The student normally carries work in his major subject throughout the entire four-year course.

3. Elective courses. Freedom of election gives the student an opportunity to develop initiative and power. The College seeks to encourage a wise selection of courses by requirements assuring distribution and concentration.

Each student is assigned a faculty adviser to assist him in the choice of courses.

Lower Division*

The lower division comprises the work of the freshman and sophomore years. The junior certificate in the College of Letters and Science is required for admission to the upper division.

A student who transfers from another college of this University or from another institution must meet the junior certificate requirements; but, if

* See also study-list regulations below.
credit of 60 or more units is allowed him, he is given upper division standing and may meet subject shortages concurrently with degree requirements.

Certain courses taken in the high school are accepted as fulfilling in part or in whole some of the junior certificate requirements. The student should so arrange his high school program as to reduce the required work in the fields of foreign language, mathematics, and natural science. However, the fulfillment of junior certificate requirements in the high school does not reduce the number of units required in the University for the junior certificate (60) or for the degree (124).

The junior certificate is granted on the completion of not less than 60 units of college work and the fulfillment of the following requirements, toward which the courses listed under (b), (c), and (d) will be accepted:

(a) **General University Requirements.**

Subject A.
Military, 6 units (men).
Physical Education, 2 units.

(b) **Foreign Language.** At least 15 units in not more than two languages. Each year of high school work in a foreign language will be counted in satisfaction of 3 units of this requirement. Courses given in English by a foreign language department will not be accepted in fulfillment of this requirement.

- French SA (4), SB (4), SC (3).
- German SA (4), SB (4), SC (2).
- Spanish SA (4), SB (4), SC (3).

(c) **Mathematics.** Elementary Algebra and Plane Geometry. Courses in these subjects are not given in the fall and spring sessions of the University.

B. Plane Geometry (no credit).

(d) **Natural Sciences.** At least 12 units.

- Botany S1* (4).
- Bacteriology S1* (4).
- Biology S1 (3), S12 (3).
- Geology S1c (2).
- Zoology S1A* (5).

(e) **Year Courses.** A year course in each of three of the following groups:

1. English, Public Speaking.
2. Foreign Language (additional to b). This may be satisfied in whole or in part by high school Latin.

*The student's work in natural science must include at least one course in laboratory science. Any of the courses marked with an asterisk in the above list will be accepted in fulfillment of this requirement. Courses with but one unit of laboratory science are not accepted as fulfilling this requirement and are not marked above, unless they have as prerequisite a course that also requires one unit of laboratory work.*
(3) Mathematics.
(4) Social Sciences.
(5) Philosophy.

But it is to be noted that requirement (e) must be satisfied in its entirety in the fall and spring sessions or in the University of California Extension Division.

REGULATIONS CONCERNING LETTERS AND SCIENCE COURSES

At least 112 units offered for the degree of A.B. must be in courses chosen from the Letters and Science List of Courses, and the 36 units in upper division courses required in the upper division must be selected from the same list with the exceptions noted below.

The courses in the Summer Session, 1934, which are in the Letters and Science List of Courses are given below.

Teachers College.

The Teachers College is organized on the basis of four years of combined academic and professional work leading to the degree of Bachelor of Education and one or more of the following teaching credentials:

1. The Kindergarten-Primary Credential, valid in the kindergarten and grades one, two, and three of the elementary school.
Recommendation for this credential is based upon the completion of all requirements for the degree of Bachelor of Education with a major in Kindergarten-Primary Education.

2. The Elementary Credential, valid in the eight grades of the elementary school.
   Recommendation for this credential is based upon the completion of all requirements for the degree of Bachelor of Education with a major in Elementary Education.

3. The Junior High School Credential, valid in the junior high school.
   This credential is awarded only in conjunction with the Elementary or Special Secondary credentials. The requirements are the completion of a major and a minor, or two minors, in fields taught in the junior high school, and eighteen units in education including Education 170 and supervised teaching at the junior high school level.

4. The Secondary Special Credential of the following types: Art, Commerce, Home Making, Industrial Arts, Education, Music, and Physical Education. These credentials are valid in the high school, junior high school, and elementary school.
   These credentials are awarded upon the completion of all requirements for the degree of Bachelor of Education with majors in art, commerce, home economics, mechanic arts, music, or physical education.
   The courses comprising these majors are listed under the departments concerned.

5. The General Secondary Credential.
   A statement of the requirements for this credential may be secured on application to the dean of the Teachers College.

Physical Education.

No visitors will be admitted to physical education classes except by special arrangement with the instructor upon approval of the Dean.

Physical examinations will be required of all those taking the practical courses. Special examinations for women will be conducted in Room 8, Royce Hall, during the first week of the session. Appointments must be made in the Women's Physical Education Building the first day of the session. Physical examinations for men will be conducted in Room 15, Library, during the fourth and fifth days of the session. Appointments for these examinations must also be made the first day of the session in the Men's Gymnasium, room 206.

Curricula in Public Health Nursing and in Nursing Education.

Students who complete the curriculum in public health nursing will be granted certificates which will admit them to the examination conducted by the State Department of Public Health for the credential of Public Health Nurse. Students who complete the curriculum in nursing education will be granted certificates in nursing education. This curriculum is designed to supplement the basic training of nurses who desire to fill administrative, supervisory, and teaching positions in schools of nursing.
Requirements for Admission. Either curriculum is open to graduates of schools of nursing approved by the University of California who possess the California credential of Registered Nurse and who are eligible for admission to the University as regular undergraduate students. Students of nursing may be admitted to either curriculum for the final eight months period of their elective training when such election is approved by their schools. The general University requirement in relation to Subject A (English composition) applies to students who enroll in either curriculum.

Prerequisites. Economics 1A (Principles of Economics), 3 units, and Psychology 1A (General Psychology), 3 units, are prerequisite to admission to either curriculum. Both Economics 1A and Psychology 1A are generally available in the Intersession and Summer Session at Berkeley and in the Summer Session at Los Angeles.

Application for Admission. Forms of application and a form for certificates of the high school or collegiate record will be supplied to any applicant for admission, upon request, by the Director of Admissions.

Applications should be submitted as far in advance of the date of registration as possible in order to allow time for the evaluation of credentials.

The Curriculum in Nursing Education requires the completion of 32 units approved by the Committee on Curricula for Nurses, with as many grade points as time units in the courses undertaken.

The Curriculum in Public Health Nursing requires the completion of 38 units during three semesters of residence, of which 6 units (taken during the third semester) must consist of field work in Public Health Nursing. Conditions as to approval of program and attainment of grade points are identical with those in the curriculum in Nursing Education.

Attendance at Intersession and Summer Sessions. Not more than 18 units of credit in either curriculum may be secured by attendance at Intersessions and Summer Sessions. The remaining units must be secured in the spring or fall semesters at Berkeley. Students contemplating satisfying some of the requirements in Summer Session should consult the Chairman of the Department of Hygiene.

### Graduate Study.

*Summer Session Work toward Higher Degrees.*—In planning a program for a higher degree it must be borne in mind that the members of the regular staff are not on duty in the summer months. Admission to candidacy does not constitute a claim upon the vacation time of members of the faculty for direction of thesis work.

Students who plan to offer Summer Session courses in partial fulfillment of the requirements for the master's degree should be careful to select only courses especially designated as acceptable for this purpose. Not all the upper division courses offered in the Summer Session may be offered in satisfaction of the requirements for the master's degree. Following is the list of courses given at Los Angeles during the Summer Session of 1934 which will be accepted in partial fulfillment of the minimum requirement of 20–24 units of advanced work for the master's degree or 20 units for the Certificate of Com-
pletion of the teacher-training curricula. Before undertaking any of the courses listed below, the student should seek proper advice.

Accepted as Graduate Courses:
Education S270A, 275A.
English 218, 225.
History 254C, 258C.
Mathematics 208, 237.
Physical Education S250A, S256.
Physics (see Mathematics 237).
Zoology S274A.

*Accepted as Upper Division Courses:
Botany S109.
Economics S100, S122, S132, S134, S135, 136. (Also, see Sociology.)
English, 104, 106, 116, S117J, S121A, S131B.
Geography S111, S121.
Philosophy S112, S121, S146.
Political Science S110, 144, S156, S157A.
Psychology S107A, S110, S112, S166A, S166B.
Sociology 105, 181, 183, S187.
Zoology S103, S199A, S199B.

Graduate Students.—Admission to graduate courses in the Summer Session does not carry with it the right of admission to graduate study in the regular sessions of the University of California at Los Angeles. No student is assumed to be in graduate standing until his credentials have been evaluated and approved and he has been accepted for graduate study. All communications concerning admission to graduate study in the regular sessions should be addressed to the Registrar.

After evaluation of credentials, such students should submit their study-lists to the graduate adviser in the department of the major subject.

The Announcement of Graduate Courses may be obtained by addressing the Registrar, University of California at Los Angeles, 405 Hilgard Avenue, Los Angeles.

Political Science S101 or S157A in the Summer Session may be offered to satisfy the requirement of a course in the Constitution of the United States for a university degree or for a teacher's certificate.

*Upper division courses in other departments not appearing in this list might be accepted provided the major department approves them.
Teachers' Certificates.

During the opening days of the session a representative of the State Department of Education will keep office hours on the campus for the purpose of explaining requirements for teachers' certificates.

Conference for Junior College Principals, Deans, and Teachers.

During the Summer Session for the year 1934, on July 12 and 13, there will be held a conference for junior college administrators and teachers.

Topics.

The topics to be considered are:

1. The underlying philosophy of the junior college.
2. Problems of curricula.
3. Problems of administration.
4. The guidance program in the junior college.
5. Relations of the junior college to higher institutions.
6. Forward movement in the junior college field.
7. Additional problems to be suggested by members of the conference.

Plan.

The program for the two days will be announced later. Junior college teachers and administrators will be on the program each day of the conference. Sessions will be held from 9:30 to 11:30 a.m. and from 1:30 to 3:30 p.m.

Fees.

There will be no charge connected with the conference.

Information.

The conference will be under the direction of Dr. Merton E. Hill. Information may be obtained from Dr. Hill, 202 Education Building, 405 Hilgard Avenue, Los Angeles, or 101 California Hall, University of California, Berkeley.

Conference for Junior and Senior High School Teachers.

Under the direction of Mr. Arthur Gould, Deputy Superintendent, Los Angeles City Schools, the California Society of Secondary Education is sponsoring a two-day conference for junior and senior high school teachers, to be held Monday and Tuesday, July 9 and 10. The conference will deal chiefly with the problems of the classroom teacher and will be open to those in attendance at the Summer Session and to all others interested in secondary education.
Conferences for Elementary School Principals.

During the Summer Session of 1934 a conference for elementary school principals will be held on the Los Angeles campus under the direction of the Teachers College. The meetings have been scheduled for July 17, 18, and 19. For students not enrolled in the Summer Session there will be a registration fee of $1.

A similar conference for elementary school principals will be held on the Berkeley campus on July 10, 11, and 12.

Each conference will be planned and conducted in the same manner as in previous years. The problems will be chosen from those submitted by the principals. A general discussion of each outstanding problem will be followed by a series of round table discussions.

Information concerning the conferences may be obtained by addressing Professor Charles W. Waddell, Teachers College, University of California at Los Angeles, Los Angeles, California, or Professor George C. Kyte, School of Education, University of California, Berkeley, California.

Conference on Public Affairs.

In 1934 the Summer Session will substitute for the Open Forums an Institute of Public Affairs. The Institute will be under the joint sponsorship of the Pacific Southwest Academy of Political and Social Science and the Summer Session. The dates of this conference are July 26 and 27.

Appointment Secretary.

During the session Miss M. Burney Porter, Appointment Secretary of the University of California at Los Angeles, will keep office hours daily in Room 123, Education Building. Those desiring positions in the elementary schools, the junior high schools, and the high schools should register with her.

Registrants for all positions must pay at the office of the Comptroller a fee of five dollars ($5) to cover the cost of clerical work. This fee also entitles registrant to service by the Appointemnt Office at the University of California, Berkeley, if desired.

More effective aid will be rendered to superintendents and principals if the secretary is notified in advance of the specific requirements of positions and the hours at which appointments are desired.

Library Hours.

Throughout the Summer Session the Library will be open daily from 7:45 a.m. to 6 p.m., Monday to Friday inclusive, and from 7:45 a.m. to 1:00 p.m., Saturday.
Upon presentation of admission card, full library privileges, including the home use of books, as accorded to regular University students, are extended, without additional fee, to students registered in the Summer Session.

The Los Angeles Public Library, on South Hope street between Fifth and Sixth streets, the West Los Angeles Branch Library, Purdue street and Santa Monica boulevard, and the Santa Monica Public Library, 503 Santa Monica boulevard, are open every week day. Summer Session students may obtain readers' cards by filing with their application blanks cards signed by the Registrar, stating that they are students in the University.

**Summer Session Bruin.**

The *Summer Session Bruin* is issued twice each week throughout the session. In addition to Summer Session news, it contains announcements of lectures, concerts, exhibits, meetings of University organizations, and general information of interest to visitors. The subscription price is 50 cents, payable with other fees at the office of the Comptroller.

**Recreation and Excursions.**

The neighborhood of Los Angeles offers many opportunities for recreation. Swimming facilities are afforded at the numerous beaches along the coast line; a network of automobile drives covers all southern California; week-end excursions are possible to the old missions of California, to the observatories of Mt. Lowe and of Mt. Wilson, to Catalina Island with its submarine gardens and its fishing, to Santa Barbara and Riverside, to Pasadena and San Diego, to Big Bear Lake and other mountain resorts, and to La Jolla Biological Station.

Through the courtesy of the Bel-Air Garden Club, students and faculty members of the 1934 Summer Session will be extended the privilege of visiting some of the most famous gardens of this community. The date of the visit will be July 30.

**Accommodations and Expenses.**

There are privately owned dormitories for men and for women, fraternity houses, and private homes in the vicinity of the University where students may obtain room and board at prices ranging from $40 to $55 per month. A list of addresses where either board or lodging or both may be obtained will be ready for distribution at the office of the Summer Session in Los Angeles, Room 131, Education Building, or at the office of the Dean of Women, 116 Royce Hall, University of California at Los Angeles, 405 Hilgard Avenue, by May 15. Copies will be mailed on request. Every possible assistance will be given to strangers in their search for suitable accommodations.
The following table will enable the student to form an estimate of the expenses, exclusive of railway fare, to be met in attending the six weeks of the Summer Session:

The Associated Students' Store carries all textbooks for Summer Session courses, as well as stationery and other supplies.

**Y. W. C. A.**

The building of the Young Women's Christian Association situated at 574 Hilgard avenue, near the east entrance to the campus, will be open during the Summer Session for the use of all women students. The building provides reading and rest rooms, a cool patio, and Tea Room. A limited number of persons desiring to be near the campus may procure dormitory sleeping accommodations in the building at a reasonable rate. Single rooms and apartments are also available. A secretary attached to the regular staff will be in attendance during the session and available for consultation.

**Location and Transportation.**

The campus of the University of California at Los Angeles, comprising 384 acres, is within the corporate limits of the city of Los Angeles, west of Beverly Hills. It extends along the south side of Sunset Boulevard from Hilgard Avenue to Veteran Avenue, and is bounded on the south by LeConte and Gayley Avenues.

Eight or more bus lines are operated by the Los Angeles Motor Coach, Pacific Electric Railway, and Bay Cities Transit companies connecting Pershing Square, Pico, Wilshire, Beverly, Sunset, and Hollywood boulevards and districts of Santa Monica, Ocean Park, Venice, Brentwood Heights, West Los Angeles, Culver City, Palms, Inglewood, Pasadena, Eagle Rock, Glendale, Van Nuys, and San Fernando Valley with the University.

**Buildings and Equipment.**

The present buildings of the University of California at Los Angeles are situated on a ridge of land running south from Sunset boulevard, and are approached from the east by a monumental bridge and from the west by the West Stairway. The central esplanade is flanked by four buildings, all in ruffled red brick and artificial stone, with tile roofs, in a style of architecture inspired by the Romanesque of North Italy.
The administrative offices are on the first floor and basement of the Library, the building which faces the south side of the esplanade. Located on the second floor are the main reading room, the catalogue, the reference, and the general circulation desks. In the west wing, first floor, is the reserved book reading room. The Library contains 213,000 volumes, and 1,668 periodicals are regularly received.

Josiah Royce Hall, facing the north side of the esplanade, contains forty-seven classrooms of various sizes, many faculty offices, and the auditorium, seating 1,902, and having a spacious stage, fully equipped for theatrical and musical productions. A Skinner pipe organ, a gift to the University, is in the auditorium.

The Chemistry Building, east of Royce Hall, contains classrooms and laboratories, and a lecture hall seating nearly 400. The Physics-Biology Building, east of the Library, also has a lecture room of the clinical theatre type, seating 250. The court on the west side is planted with a collection of rare cycad palms.

South of the Library and facing east is the Education Building, housing the departments of education, music, art, and home economics, as well as the administrative offices of the Teachers College and the Summer Session. Two lecture rooms are particularly adapted for musical and dramatic productions appealing to audiences of smaller size.

West of the Education Building is Kerckhoff Hall, erected by Mrs. William G. Kerckhoff of Los Angeles as a memorial to her husband. It serves as a center for the social activities of students and faculty. Here will be found the Coöperative Store, several dining-rooms and lounges, and the offices of the publications.

Two new buildings, a Physical Education Building for Women and a Men's Gymnasium and Armory, were recently constructed on the campus. Both structures have been designed in accordance with the most modern ideas in physical education, and are believed to be of sufficient size to accommodate a student body of nearly twice the present enrollment. Swimming pools and large gymnasium floors, modernly equipped, are provided in each building, as well as special training rooms for those who are physically handicapped.

Outdoor playing fields include running track, hockey field, basketball and tennis courts.

THE DEMONSTRATION SCHOOL

Organization and Objectives

The Demonstration School, in session daily from 9 to 12, will comprise a complete elementary school unit from the first through the sixth grade. Classes are open for observation by Summer Session students, especially those enrolled in the related courses.

The work of each group is planned to illustrate concretely how a completely integrated child experience draws upon and utilizes curricular materials from the various subject-matter fields. The aims, objectives, methods of procedure, and the outcomes of the activity approach to child education will be made evident through observation and by discussion. The constant aim is to work from and to illustrate the use of basic principles of teaching and learning.

A small clinical school will be conducted in connection with the course in Clinical Psychology. Diagnostic tests will be given to each child admitted to the school followed by remedial instruction for the period of the Summer Session. Special attention will be given to disabilities in specific school subjects such as reading, spelling, and arithmetic. Opportunity will be given to all members of the class in Clinical Psychology to observe or to assist in the work of the Clinical School.

The Children

Enrollment of children in the Demonstration School should be secured by advanced application to insure acceptance. Applications for enrollment should be made between May 15 and June 25 to Miss Corinne A. Seeds, Principal of the Demonstration School, University of California at Los Angeles, 725 Woodruff Avenue, Los Angeles, California. Applications for enrollment in the Clinical School should be made to Miss Grace Fernald, Department of Psychology, 405 Hilgard Avenue, Los Angeles, California. Registration of applicants will take place on Friday, June 29. The fee for the six weeks of the Demonstration School is $7.50; the fee for the Psychology Department Clinical School will be determined by the amount of work required. The fee must be paid on registration day. Checks should be made payable to the Regents of the University of California.

Related Courses

The courses which require registration for observation in the Demonstration School are Education 131A, 131B, 135B, and S275A.

UNIVERSITY OF CALIFORNIA
AT LOS ANGELES

THE
FIFTEENTH COMMENCEMENT

JUNE TWENTY-SECOND
M C M X X X I V

THE HOLLYWOOD BOWL
THE STAR-SPANGLED BANNER

Oh, say can you see, by the dawn's early light,
What so proudly we hailed at the twilight's last gleaming,
Whose broad stripes and bright stars, thro' the perilous fight,
O'er the ramparts we watched were so gallantly streaming?
And the rockets' red glare, the bombs bursting in air,
Gave proof thro' the night that our flag was still there.
Oh, say, does that star-spangled banner yet wave
O'er the land of the free and the home of the brave?

THE UNIVERSITY HYMN

O God, our help in ages past,
   Our hope for years to come,
Our shelter from the stormy blast,
   And our eternal home.

Before the hills in order stood,
   Or earth received her frame,
From everlasting Thou art God,
   To endless years the same.

A thousand ages in Thy sight
   Are like an evening gone;
Short as the watch that ends the night
   Before the rising sun.

O God, our help in ages past,
   Our hope for years to come,
Be Thou our guard while troubles last,
   And our eternal home.

MEDICAL SCHOOL

BERKELEY—SAN FRANCISCO

NOTE.—The medical classes of the first year are conducted in Berkeley; all other medical instruction is given in San Francisco. Medical students in the first year are listed also among graduate or undergraduate students in the foregoing pages. Names marked with an asterisk * are those of students who have fulfilled the fifth year requirement in advance of the final year of residence. With the approval of the Medical Faculty, students are permitted to substitute research work during any period after the third half-year of the medical curriculum in lieu of the fifth or intern year. Names marked with a double asterisk ** are those of students enrolled in the school who are fulfilling the fifth year requirement in institutions other than the University of California. The superior figure 1 marks the names of students who were registered first semester only; 2 second semester only.
